Tiny Tong

tinytongs™, an innovative eating utensil designed for young children to help make mealtime easier for the entire family. tinytongs feature an ergonomic, curved shape to perfectly fit tiny hands. The utensil's non-slip grip is formed to stay in a child's hand. The gripping ridges help the child pick up and secure food while transporting it to his or her mouth. The product's unique design and size allows for children to effortlessly pick-up bite size pieces of food. When using tinytongs children also strengthen their hand muscles, the same muscles used in later years when learning how to write. tinytongs are suitable for children from age 12+ months through 5+ years, are dishwasher safe, available in stylish colors including pink, purple, orange and green. For more information, visit www.tinytong.com.

Cate and Levi

As Josh Title, creator of Cate and Levi, awaited the birth of his first child, he noticed that there was a lack of one of a kind, responsibly made, and beautifully designed products for children. He decided to create a unique collection of products that would be intricately crafted and environmentally responsible. No two Cate & Levi products will ever be the same. Each one is made from reclaimed wool whose colors and textures are individually selected. Not only is this process environmentally responsible, but it ensures that each animal is truly a one of a kind creation never to be duplicated. Each item is as unique as the child who adopts it.
