

# Safe kids, happy parents

1

## 1) Get ready to get wet!

This is the first crossover carrier to keep infants comfortable and close to their parents in water, on land and everywhere in between. Now you and your little one can head into the pool, shower and even the snow, safely! Plus it comes in cool prints like green fatigue and red hibiscus.

## 2) First aid for first-timers

With everything from disposable thermometers to antibiotic ointment packs and kid-friendly crayon badges, this first aid kit gives kids and parents a great, sting-free approach to first aid. Best of all, the kit includes an easy-to-use First Aid Flip Chart, with directions on handling common childhood injuries and accidents. Other bonuses include a CD for safety-proofing your home and worksheets to leave with babysitters.

## 3) Shade on the go

This cleverly designed sunshade is what we've all been looking for to keep our babies safe on the go. With an easy-to-use snap closure and adjustable hat, this cape helps you protect your baby in hard-to-protect positions and places including front carriers and strollers.

## 4) These shoes were made for walking...

With thousands of children falling around pools every year, these anti-slip pool shoes are a great find. Stylish and incredibly light, kids will actually want to wear them and parents will feel good about preventing accidents.
